Department of Conservative Dentistry and Endodontics
Add on programme

Evolve

About: Practical skill based programme for Interns by Department of Conservative Dentistry and Endodontics

Need: The Undergraduates after completion of their course wish to practice their skills and join some senior practitioners or embark on their own establishment. The current contemporary Conservative and Endodontic practices are much evolved than the curriculum prescribed for undergraduates. Thus this add on programme is to boost their confidence and skill to start their own practice.

Aim: We aim to empower these budding professionals with basic hands-on practice of all contemporary treatment protocols in Conservative and Endodontics specialty.

Adaptability: This course is designed to generate interest in the specialty, develop basic skills in Root Canal Treatment and Esthetic restorations.

Assessment Matrices: The individual assessment will be done in pre-test and post-test format.

Course contents:

1 Composite Restorations
2 Bleaching
3 Root Canal Treatment
4 RVG and Magnification
5 Isolation

Course Schedule: Twice a week for 2.5 hrs for six weeks. Twelve clinical classes for 30hrs.

Course Contents:
